

BRIAN MAYNOR

Vice President of Construction

Brian Maynor oversees the construction process for new Multi-Family developments in North Texas, with responsibility for managing estimation, budget, buy-out, schedules, job-cost reports, and project management staff.

Mr. Maynor has over 16 years' experience in the construction and development industry, Mr. Maynor is experienced in multi-family high density mixed use and garden style construction projects. Brian is knowledgeable in green building and has certified multiple projects under the North Texas Green Built program and National Green Building Standards Programs.

He has extensive understanding of value-engineering during the conceptual and pre-construction phases, and is able to provide the most cost-effective project within the desired budget.

Mr. Maynor graduated from the University of Louisiana at Monroe with a Bachelor's degree in Construction Management and is a member of the Dallas Multifamily NAHB.
