

GUY GREGG

Director of Landscape

As Director of Landscape management, Guy follows the landscape of our projects from planning and construction to operations. In operations, he is challenged to help keep the quality of the aesthetics fresh and attractive over time while pushing sustainable solutions and enhancements. Much of his focus is centered on our common area green space, trails, and non-potable water utilization for our master planned developments.

Guy joined Billingsley in 2013 and has over 20 years' experience in ornamental horticulture, municipal landscape, and commercial landscape. Prior to joining Billingsley, Guy was part of the team that prepared and opened the Rory Meyers Children's Garden at the Dallas Arboretum as its Horticulture Manager. He has been fortunate to have been around many exciting projects including the ongoing development and maintenance of parks, trails, and green space at the Denver Technological Center in Colorado.

Guy graduated from Texas A&M University with a Bachelor of Science in Horticulture. He enjoys spending time with his wife and son, attending sporting events, taking in live music, and travel.
